

We're revolutionizing the patient assistance journey

Patient assistance and other access services are critical to ensuring patients can get their prescribed treatment without delay and stay on it for as long as needed, as well as to ensuring that medical bills get paid.

Connecting patients with available assistance has traditionally been a complex process that is both time and labor-intensive, but Annexus Health is changing that by delivering innovative solutions, including tech-enabled services, that reduce financial and administrative burdens to improve:

Access
to therapy

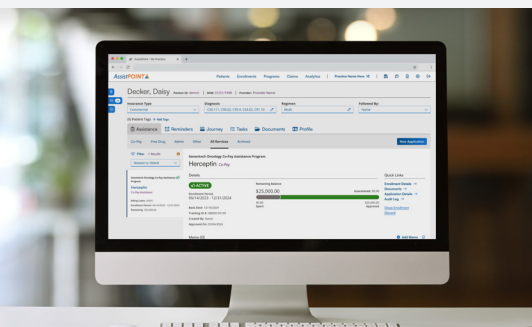

Time to start
on therapy

Duration
of therapy

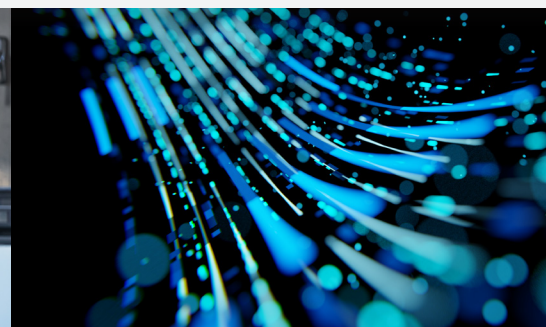

Revenue capture for the
healthcare organization

AssistPOINT 

ADPARO 

APCONNECT 

AssistPoint® is a comprehensive software platform that accelerates the management of financial assistance and access services for healthcare organizations. It helps patients get the care they need by proactively identifying available resources, streamlining enrollment, and facilitating the management of assistance.

Adparo® is a tech-enabled service that assists healthcare organizations in managing patient assistance. By proactively assessing every patient for financial assistance and other access services using the **AssistPoint** platform, the experienced team ensures efficient resource management for both healthcare organizations and patients.

AP Connect® is a technology-driven solution that digitally integrates patient support programs with **AssistPoint**, our patient access management platform for healthcare provider organizations. This creates a two-way, secure information exchange, streamlining the application, enrollment, and fulfillment processes.
